My business is Travel. I am a mobile Travel Consultant.

#### What this means:

In keeping with the times, this allows me to work mostly from home (office hours are also required), allowing me to give my clients the special attention they need. No waiting in queue at a 'bricks & mortar' Agency. We can meet in person, or we can work entirely by phone and internet. The client gets to decide.

At the same time, by joining MTA Travel, I have the backing of a company that have been around for almost 20 years and has over 400 Travel consultants working with them.

So what trip are you planning? A relaxing holiday? Or do you want some adventure? Or maybe you are traveling for corporate or business purposes. Send me an outline and I will forward you some ideas, and we can build your trip together.

I look forward to assisting your travel needs while aiming to build a longstanding relationship with you.
